

**Rayat Shikshan Sanstha's**  
**Rayat Institute of Research and Development (RIRD)**  
**Research and Development Department**

Research is the backbone of the growth of the country and RIRD is devoted to do the research in frontier areas of Arts, Commerce, Science, Engineering and Technology. The Research and Development (R&D) Department of RIRD provides administrative as well as financial support of all research and development schemes in the institute. The vital role of the R & D is to provide a healthy atmosphere for research and developmental activities of the Institute. RIRD provides research facilities in 25 different subjects of Arts, Commerce, Science, Engineering and Technology. Eighty research guides from diverse fields of research are associated with the institution and currently, 39 research scholars are perusing their degrees in the institution. Moreover, 28 professors are associated with this institute as Honorary Professors. The Institute has adequate facilities for doing research and it provides support for developing deliverables and technology transfer.

The major duties of R&D department are:

- ❖ Establishment of MoUs, linkages and collaborations with institutions and industries  
To promote Institute-Industry interactions
- ❖ Organization of guest lectures of renowned scientists from country and abroad
- ❖ To provide knowledge, support and facilities for entrepreneurs to convert their ideas into products.
- ❖ To enhance participation of researchers in interdisciplinary and Multi-disciplinary work.
- ❖ To provide services about patenting and commercialization.
- ❖ To publishes in-house research magazine e.g. RIRD Newsletter
